BLOUNT AND BLUNT

CHART

Prescott

Dear sir,

I am preparing for Mr. H. F. Blount, of Washington, D. C., a chart of the Blount family, showing their descent from the Danish kings, their early settlement in England, and those branches to which our American emigrants belonged, including several generations on this side of the water.

(A chart of all American descendants, to the present generation, would be unwieldy if not impossible.)

As Col. Blount has paid out a considerable sum for this data, which I have gathered up in England in the last six months, he is not willing for me to give it away without some compensation for my labor, so I propose to have about fifty copies of this chart printed and sell for ten dollars a piece. (This will help me to continue my investigations and sooner complete my Genealogy of the American Blounts.) It will be printed on good strong paper, about 18 by 20 inches, and convenient to frame or roll up for ready reference.

Please let me know at your earliest convenience if you wish one of these charts. As I am only sending out a few of these circulars will you kindly show this to any of your near relatives that you think might want one

Yours very truly,

HELEN BLOUNT PRESCOTT,
